

Keeping our Library Manicured!

Local libraries provide a great service in our communities by giving us the opportunity to read great stories, learn of the past and present, and expand our knowledge. Our volunteers from our Gualo Rai and Oleai Branches said “si yuus maase” one Saturday morning in their service project by pressure washing the walk ways, raking and cleaning up the grounds, trimming and pruning plants and hedges – all to maintain and beautify the grounds of the Joeten-Kiyu Public Library in Saipan used by so many local residents and visitors.
